SOIL MECHANICS AND FOUNDATION ENGINEERING

Numbers 1-6, 1970

(A translation of Osnovaniya, Fundamenty i Mekhanika Gruntov)

A

Agalarov, T. F. - 267
Alekseev, A. I. - 242
Aver'yanova, L. N. - 242

B

Babichev, Z. V. - 410
Baranov, V. N. - 348
Bartolomei, A. A. - 171
Beketov, A. K. - 348
Berezantsev, V. G. - 223, 444
Bobritskii, G. M. - 432
Boiko, I. V. - 438
Borishanskii, M. S. - 278
Borodavkin, P. P. - 291

C

Cherkasov, I. I. - 25, 95, 379
Chumakov, I. S. - 270

D

Davydov, S. S. - 231
Denisov, V. N. - 352
Didukh, B. I. - 158
Dmitrevich, Yu. V. - 47
Dykhovichnyi, Yu. A. - 121

E

Éizler, P. I. - 32
Evdokimov, P. D. - 370

F

Fedorovich, D. I. - 181
Fotieva, N. N. - 237

G

Gagin, B. N. - 100

Galitskii, V. G. - 251, 421
Genkin, A. M. - 242
Geukharov, L. M. - 185
Glinkina, L. V. - 248
Glotov, N. M. - 108
Gol'dshtein, M. N. - 319, 394
Golosoov, V. N. - 278
Gorbunov-Posadov, M. I. - 441
Grigor'ev, V. A. - 32
Grigoryan, A. A. - 255
Gubkin, V. A. - 344

I

Ignatov, V. P. - 162, 289
Isaev, B. N. - 352
Ivashchenko, I. N. - 382

J

Janbu, Njlemar - 201

K

Kananyan, A. S. - 303, 449
Karavaev, Yu. I. - 331
Khakimov, Kh. R. - 75
Khanin, R. E. - 188
Khristoforov, V. S. - 370
Kiselev, M. F. - 197, 284
Klubin, P. I. - 370
Kodzhamanov, K. T. - 226
Kogan, B. I. - 153
Kopeiko, V. Ya. - 34, 82
Korovin, N. N. - 278
Kovalenko, N. P. - 426
Kovanev, B. M. - 21
Kovtun, V. V. - 117
Krongol'd, E. S. - 193
Kruglov, I. N. - 251
Krutov, V. I. - 177, 416
Kryzhanovskii, A. L. - 68
Kul'chitskii, G. B. - 17
Kushner, S. G. - 319

L

Lazebnik, G. E. - 405
Lerner, V. I. - 270
Litvinenko, A. G. - 242
Lobov, O. N. - 242
Lomize, G. M. - 382

TABLES OF CONTENTS

SOIL MECHANICS AND FOUNDATION ENGINEERING

Numbers 1-6, 1970

(A translation of Osnovaniya, Fundamenty i Mekhanika Gruntov)

Engl./Russ.

Number 1 January-February, 1970

On the Great Anniversary—Praiseworthy Achievements	1	1
SOIL MECHANICS		
Stress State and Displacements of a Ponderable, Nonlinearly Deformable Soil Half-Space under a Circular Rigid Footing—V. N. Shirokov, V. I. Solomin, M. V. Malyshev, and Yu. K. Zaretski	2	2
Accuracy of B. N. Zhemochkin's Solution for Circular Slabs on an Elastic Half-Space —V. I. Solomin and G. V. Tegulov	9	5
Physical Essence of Processes of Deformation and Failure of Clayey Soils—S. S. Vyalov, N. K. Pekarskaya, and R. V. Maksimyak	12	7
Experimental Investigation of the Depth of Compressed Soil Foundation Stratum under a Plate—V. B. Shvets and G. B. Kul'chitskii	17	10
Development of the Zone of Deformation in a Two-Layer Bed—A. I. Rabotnikov and B. M. Kovanev	21	12
STRUCTURAL PROPERTIES OF SOILS		
Influence of Gravity on the Mechanical Properties of Soils—I. I. Cherkasov, V. V. Mikheev, V. P. Petrukhin, V. A. Pakulin, A. S. Snarskii, and V. V. Shvarev . .	25	14
Nomograms of the Dependence of Strength Characteristics on the Void Ratio and Plastic Limit of Clay Soils—V. A. Grigor'ev and P. I. Éizler	32	18
FOUNDATION ENGINEERING		
Production and Use of Pipe Piles—V. Ya. Kopeiko	34	20
Investigation of Kinematic Factors in Backfill behind Inclined Retaining Walls —P. I. Yakovlev	40	23
Angular Deflection of Rigid Rectangular Foundations on Soil Layer of Finite Thickness —G. V. Raskin	44	26
New Pile-Driving Tubular Diesel Hammers—B. G. Lyzo, Yu. V. Dmitrevich, and L. N. Terenetskii	47	27
CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS		
Determination of Deformations of a Base of Expansive Soil with Consideration of Its Joint Action with the Structure—V. S. Sazhin	49	28
OBITUARY		
E. I. Medkov 1898-1969.	55	31
FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS		
Arrangement of Foundation Beds under Thermoelectric Power Plants—E. I. Orlov . . .	56	32
ADVICE TO DESIGNERS AND INVESTIGATORS		
On the Methodology of Determining the Humidity of Frozen Soils—A. M. Pchelintsev . . .	59	33
Nomogram for Calculating the Criterion of Slump Proneness or Swelling of Soils —Yu. K. Shipulin	61	34

Pressure Meter for Determining the Compressibility of Soils in Boreholes -V. V. Lushnikov and K. G. Pshenichnikov	62	35
Graphic Method of Distinguishing Slump-Type Soils through the Use of Nomenclature Criteria-A. V. Yakovlev.	64	36

INFORMATION

First Baltic Conference on Engineering Geology, Soil Mechanics, and Foundation Engineering-I. Shimkus	66	37
--	----	----

REVIEWS AND BIBLIOGRAPHY

Proceedings of the Third Budapest Conference on Soil Mechanics and Foundation Engineering-Reviewed by A. L. Kryzhanovskii	68	38
--	----	----

Number 2 March-April, 1970

V. I. Lenin and Scientific and Technical Progress-L. I. Uvarova	71	1
I Owe Everything to V. I. Lenin-Kh. R. Khakimov	75	3
Effect of Leninist Ideas on the Development of Engineering Surveys-A. P. Staritsyn ...	77	4
Development of Special Methods for Establishing Foundations-V. Ya. Kopeiko and Yu. G. Trofimenkov	82	6
Problems in Soil Mechanics-S. S. Vyalov	88	10
Mechanics of Lunar Soils-I. I. Cherkasov, V. V. Mikheev, V. P. Petrukhin, and V. V. Shvarev	95	13
Improvement in the Construction of Underground Structures by Mintyazhstroï SSSR -T. N. Tsai and B. N. Gagin	100	16
Clay Solutions in the Construction of Foundations and Underground Installations -S. A. Ter-Galustov	104	18
Development and introduction of Progressive Types of Bridge Foundations -G. P. Solov'ev and N. M. Glotov	108	21

SOIL MECHANICS

Influence of Vibrodynamic Action on the Elastic Properties of Clay Soils-G. N. Zhinkin and L. P. Zarubina	113	24
Investigation of the Strength Characteristics of Soils under Plane Deformation -F. M. Shikhiev and V. V. Kovtun	117	26

FOUNDATION ENGINEERING

Improvement of the Foundation Elements for Multistory Residential and Civil Buildings (From Moscow Building Experience)-Yu. A. Dykhovichnyi	121	28
From the National Association for Soil Mechanics and Foundation Engineering of the USSR.	127	31
Foundation Settlements in a Television Tower at Ostankino-N. V. Nikitin, A. I. Mikhail'chuk, and V. I. Travush	128	32

INFORMATION

Some Results of the VII International Congress on Soil Mechanics and Foundation Engineering-N. A. Tsytoich	135	36
Republic Conference on Laboratory Soil Investigations-V. N. Plotnikov and M. A. Solodukhir	138	37
Interdepartmental Scientific and Technical Conference on Field Methods of Investigation -L. G. Mariupol'skii and V. V. Mikheev	140	38
Works on Soil Mechanics and Foundation Engineering Published in 1968-1969 -L. G. Zanyatina, V. I. Ostrov, and D. E. Pol'shin	142	39

Number 3 May-June, 1970

SOIL MECHANICS

Commitments Fulfilled!—V. S. Sazhin	151	1
Stability Analysis of Slopes—B. I. Kogan and A. A. Lupashko	153	2
Stresses in a Pile Subjected to Impact Loads through an Elastic Cushioning Block —B. I. Didukh and D. A. Trifonov-Yakovlev	158	4
A Numerical Method for the Analysis of Finite Beams on a Statistically Nonhomogeneous Foundation—V. P. Ignatov and S. A. Vershinin	162	7

FOUNDATION CONSTRUCTION

Sinking Piles in Polymer Jackets—É. I. Mulyukov	167	9
Computation of Settlements of Multiron Pile Foundations—A. A. Bartolomei	171	12

CONSTRUCTIONS UNDER SPECIAL SOIL CONDITIONS

Basic Theses on the Design of Buildings and Structures on Settling Soils (Discussion) —V. I. Krutov	177	15
Mechanical Integrator for Determining the Stationary Temperature Fields in Soil Bases —D. I. Fedorovich	181	17

EXPERIENCE OF CONSTRUCTION ORGANIZATIONS

Sinking a Prefabricated Reinforced-Concrete Well in a Thixotropic Jacket —E. E. Mordovets, Yu. V. Permyakov, D. B. Shkol'nikov, and L. M. Geukharov	185	19
On Using Large-Diameter Cast-In-Situ Bored Piles—A. A. Obodovskii and R. E. Khanin	188	21

DISCUSSIONS

Infiltration in Compressible Loessoid Soils—A. A. Mustafaev, E. S. Krongol'd and V. L. Sel'myanskii	193	24
Normative Frost Penetration Depth for Foundation Purposes—M. F. Kiselev	197	26

FROM FOREIGN EXPERIENCE

Method of Settlement Computation for Various Types of Soils—Njlemdr Janbu	201	28
---	-----	----

INFORMATION

Annual Convention of the National Association of Soil Mechanics and Foundation Engineering, USSR	207	31
President of the National Association of Soil Mechanics and Foundation Engineering, USSR N. A. Tsytovich (On the Occasion of His 70th Birthday)	209	32
All-Union Conference on the Stability of Slopes Subject to Seepage—D. E. Pol'shin and Yu. A. Sobolevskii	211	33
Conference on Design and Construction of Pile Foundations in Permafrost Soils —V. F. Zhukov	213	34

REVIEWS

E. M. Perlei and N. Ya. Tsukerman. Tubular Reinforced-Concrete Piles and Caisson Sheels for Industrial and Civil Construction—Reviewed by R. M. Narbut	216	35
The Donetskii Promstroiniiproekt, Handbook of Tower Headframe Foundation Design —Reviewed by A. P. Staritsyn	218	35
Recommendations for the Preparation of Work Sites for Construction-Erection Operations in the Extreme North—Reviewed by V. F. Zhukov	220	36

OBITUARY

Abram Marlovich Drannikov	221	36
-------------------------------------	-----	----

Number 4 July-August, 1970

SOIL MECHANICS

Experimental Investigations on Axisymmetrical Limiting Equilibrium in Soils -V. G. Berezantsev	223	1
Predicting the Settlement of Structures Erected on Unsaturated Soils-N. N. Maslov and K. T. Kodzhamanov	226	3
Calculation of Foundation Slabs on a Mixed Base-S. S. Davydov	231	5
Stress of a Base under a Deep Foundation-V. A. Lytkin and N. N. Fotieva	237	8

FOUNDATION ENGINEERING

Rational Types of Foundations for Construction under Conditions of the Tyumen Region -A. N. Tetior, A. I. Alekseev, L. N. Aver'yanova, V. V. Pavlov, O. N. Lobov, A. G. Litvinenko, S. I. Oreshnikov, A. M. Genkin, and A. I. Sal'nikov	242	11
A New Static Soil Probing Apparatus Developed for Determination of the Group Effect in Floating Pile Foundations-A. M. Rukavtsov and L. V. Glinkina	248	15

CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS

Compaction of Loessial Soils Prone to Slump-Type Settlement for Construction in Tol'yatti-V. G. Galitskii and I. N. Kruglov	251	17
The Design of Pile Foundations on Soils Prone to Slump-Type Settlement -A. A. Grigoryan	255	19
Post-Construction Increase of Humidity of Loessoid Soil Foundation Beds under Dry Climate Conditions-B. P. Markin	259	21
Characteristics of Bases on Dislocated Swelling Clays-Ya. S. Meterskii	261	22
Computation of Size and Intensity of Swelling of Freezing Soils-V. O. Orlov	263	24

FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS

Field Tests on Cast-in-Situ Bored Piles-T. F. Agalarov, R. K. Nazirov, I. F. Smagin, M. Ya. Tripol'skii, and L. M. Shneiderov	267	26
Experience in Sinking Bored, Underreamed Piles in the Ukraine-V. I. Lerner and I. S. Chumakov	270	28
Stabilization of Piping-Type Landslides in Kiev-A. S. Shtekel'	275	31

ADVICE TO DESIGNERS AND INVESTIGATORS

Calculation of Slabs of Pile Grillage for Jacking-V. N. Golosov, M. S. Borishanskii, and N. N. Korovin	278	32
---	-----	----

DISCUSSIONS

Depth of Foundations-M. F. Kiselev	284	35
--	-----	----

BRIEF COMMUNICATIONS

Design of Rectangular Slabs Resting on a Statistically Nonhomogeneous Base -V. P. Ignatov	289	37
Calculation of Unstabilized Settlements of Structures with the Aid of an Electronic Digital Computer-P. P. Borodavkin and V. G. Tropin	291	38

REVIEWS AND BIBLIOGRAPHY

New Chapter of Construction Norms, Specifications, and Regulations (SNiP), II-A.13-69, "Engineering Explorations for Construction"-Reviewed by A. P. Staritsyn	292	39
---	-----	----

OBITUARY

Vsevolod Glebovich Berezantsev, 1911-1970	294	39
---	-----	----

ERRATA	296	
--------------	-----	--

SOIL MECHANICS

Experimental Investigation of the Stress Distribution in Sandy Foundation Beds Beneath a Circular Foundation with Increasing Load - G. A. Skormin and M. V. Malyshev	297	1
Experimental Investigation of the Stability of Foundation Beds of Finite Thickness - A. S. Kananyan	303	5
Experimental Investigation of the Combined Behavior of Reinforced-Concrete Plates and a Sandy Foundation Bed - A. A. Tsesarskii and Yu. N. Murzenko	308	7

STRUCTURAL PROPERTIES OF SOILS

Experimental Investigations of the Mechanical Characteristics of Frozen Ground at Different Rates of Loading - V. A. Zakharov	312	10
Place of Sapropels in the Soil Classification According to SNiP II-B.1-62 - A. Ya. Rubinshtein	316	12

FOUNDATION ENGINEERING

Engineering Method for Calculating Foundation Settlements at Pressures Exceeding the Standard (for Purposes of Discussion) - M. N. Gol'dshtein and S. G. Kushner.	319	13
Design of Structures Which Interact with Their Soil Bases, with an Automatic Search for the Schematic Arrangement - A. I. Polovinkin and V. P. Matveev.	326	17
Investigation of Longitudinal Forces in Pipes on Undercut Ground - Yu. I. Karavaev and A. S. Tregub.	331	19
Vibration of the Foundations of Rod and Ball Mills at Concentration Plants - N. S. Shkurenko, Yu. B. Rakhlin, and V. G. Surguchev	335	21
Irreversibility, with Time, of the Process of "Suction" of Piles in Clay Soils - A. E. Radugin.	340	24

CHEMISTRY IN FOUNDATION CONSTRUCTION

Gaseous Silicization of Loessial Ground - V. E. Sokolovich and V. A. Gubkin.	344	26
Strength and Deformation Characteristics of Silicate-Stabilized Loess - A. K. Beketov, V. N. Baranov, and A. F. Seleznev.	348	28
Strength Properties of Chemically Stabilized Sand - B. N. Isaev and V. N. Denisov.	352	30

CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS

Excavation of Frozen Soils at Vorkuta - L. P. Markizov.	357	32
---	-----	----

DISCUSSIONS

Consideration of the Thermal Effect of Building on Freezing Depth of Soil - B. I. Tsiunchik.	362	35
Concerning M. N. Gol'dshtein's Article "Principles of Designing Structures on Soils Slumping from Flooding" - I. A. Rozenfel'd	365	36

INFORMATION

Scientific Conference of the Leningrad Institute of Construction Engineering (LISI) - N. N. Morareskul	367	37
---	-----	----

REVIEWS AND BIBLIOGRAPHY

Centennial of Publication of the First Book on Foundations and Soil Bases in the History of Our Country's Foundation Building - E. V. Makarov	368	37
I. I. Kandaurov, E. M. Aksenov, and V. P. Matveev. Computation of Stresses and Settlements of Foundation Bases by Use of Digital Electronic Computers - Reviewed by P. D. Evdokimov, P. I. Klubin, V. S. Khristoforov, A. N. Snitko, and V. V. Nekrasov	370	38

Arpad Kezdi and Ivan Marko. Earthwork Structures, Their Stability and Drainage -Reviewed by Yu. A. Sobolevskii.	372	39
Works on Soil Mechanics and Foundation Engineering Published in 1969-1970 -L. G. Zanyatina, V. I. Ostrov, and D. E. Pol'tshin.	374	40

Number 6 November-December, 1970

SOIL MECHANICS

Determining the Compressibility Factor of Soils from the Impression of Test Plates - N. A. Tsytoich and I. I. Cherkasov.	379	1
Deformability of Clay Soil under Composite Loading - G. M. Lomize, I. N. Ivashchenko, and M. N. Zakharov.	382	3
Comparison of Experimental and Theoretical Resonance Curves in Foundation Modeling According to the Elastic Half-Space Theory - V. Ya. Rudnik.	387	6

CONSTRUCTION PROPERTIES OF SOILS

Determining Settlement Properties of Loessial Soils Prone to Slump-Type Settlement - M. N. Gol'dshtein and N. A. Makarenko.	394	10
Consolidation of Peat-Bearing Strata under Foundation Loads - Yu. K. Zaretskii.	398	12

FOUNDATION ENGINEERING

Investigation of Soil Pressure Distribution under Foundation Mats of Buildings - G. E. Lazebnik.	405	15
Combined Action of a Pile Foundation and the Boxing of a Large-Panel Frameless Building - Z. V. Babichev and A. I. Yushin.	410	18

CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS

Consideration of the Deformation of Soils Prone to Slump-Type Settlement in the Structural Analysis of Buildings (For Discussion) - V. I. Krutov.	416	22
Investigations of the Effectiveness of Compaction-in-Depth of Settling Soils in Construction in Toghlatti - V. G. Galitskii.	421	24
Modification of Hydrologic Characteristics of a Peat Bed under Compaction - N. P. Kovalenko.	426	27

FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS

Deformations of a Long-Span Industrial Building in Connection with Frost Swelling of Its Subfoundation Soil - B. I. Tsiunchik and N. Ya. Naumov.	429	28
--	-----	----

ADVICE TO DESIGNERS AND INVESTIGATORS

Plates with Rigid Inclusions on Nonhomogeneous Foundation Beds - G. M. Bobritskii.	432	30
--	-----	----

INFORMATION

Scientific-Research Work Relating to Soils and Foundations at the Conference on the Pechora Basin in Vorkuta - I. V. Boiko and L. P. Markizov.	438	33
The Fourth Asian Regional Conference on Soil Mechanics and Foundation Engineering.	440	34
